

Video Management System for AI-powered Video Analytics

Lanner and Gorilla have partnered to offer edge devices with built-in AI-powered video analytics that give real-time insight into business and operations.

EAI-I131

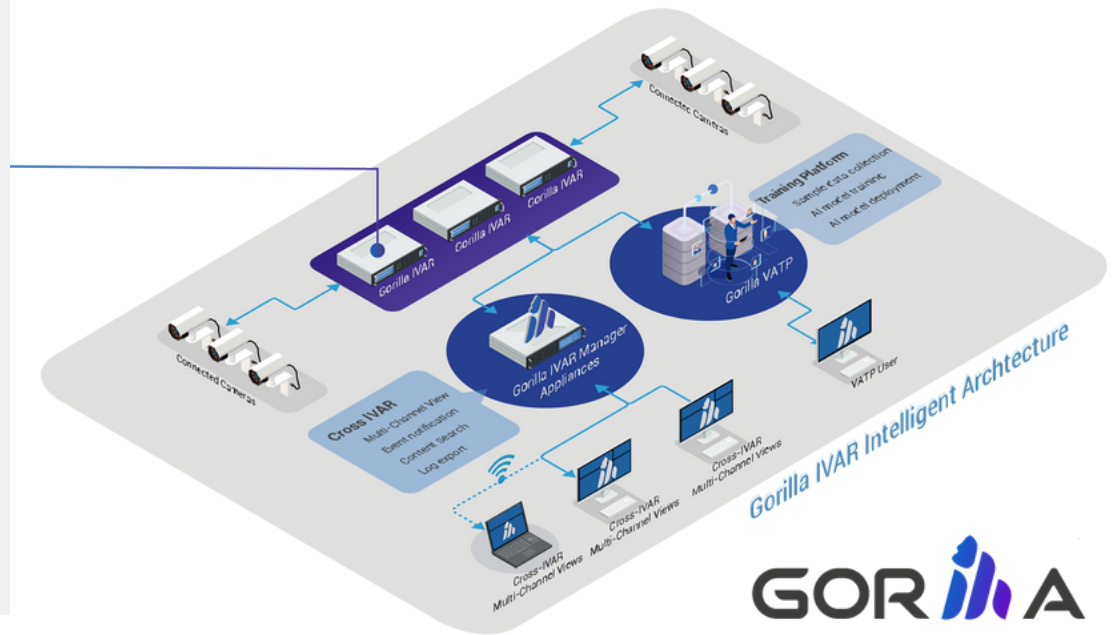

- NVIDIA Jetson Orin NX/Nano
- 2x PoE, 2x COM, 4x DIO
- M.2 for 5G Sub6 and WiFi

EAI-I500

- Intel® Core™ Ultra
- 4x RJ45, 4x USB, 2x COM, 4x DIO
- M.2 for 5G Sub6 and WiFi

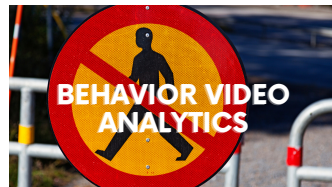

Lanner Edge AI Appliances with Gorilla IVAR® (Intelligent Video Analytics Recorder) protect enterprises and organizations with event-based solutions that effectively search and find people, vehicles, and objects, detect suspicious events and prevent incidents.

FACE & HUMAN ANALYTICS

- VIP, Watchlist, Blocklist
- Clothing Colors
- Faces, Head & Shoulders
- Gender, Age
- Eyewear, Mask

BEHAVIOR VIDEO ANALYTICS

- Loitering Detection
- People Counting
- Fall Detection
- Intrusion Detection
- Line Crossing

VEHICLE & LICENSE PLATE ANALYTICS

- Vehicle Type Detection
- Zone Intrusion
- License Plate Recognition
- Path Analysis
- Direction Violation

CROWD & RESPONSE ANALYTICS

- Mask Detection
- People Flow Management
- Crowd Detection
